I build dashboards, automate reporting, and help explain what drives changes in key metrics.

EXPERIENCE

Entsiklopediya Publishing House | Independent Analyst Oct 2026 – Present

- **Redesigned the manuscript proofreading workflow, reducing time and costs.** Built and delivered a Python tool that uses a language model to generate an Excel report for manual review.

Alfa-Bank Belarus | HR Data Analyst / BI Analyst Sep 2025 – Oct 2026

- **Built several strategically important Power BI dashboards.** One showed where pay lagged market benchmarks by job function and grade. Reviewed the figures with stakeholders before release.
- **Automated quarterly training reporting.** Queried the bank's data warehouse using SQL and combined data in Excel Power Query. Once the extracts were ready, the report took a couple of minutes to generate.
- **Analyzed hundreds of employee departures.** Cross-checked three sources and found below-market pay in one retail business unit. After several studies, the bank revised pay in that unit.

Syberry CIS | Data Analyst Oct 2023 – Mar 2025

- Queried utility invoice data in SQL and showed the client how energy costs changed across periods, regions, and resource types.
- **Cut preparation time for a consolidated report from about 8 hours to 5** using Power Query and Python.

Minsk Poultry Farm No. 1 | Economic Analyst Dec 2019 – Aug 2023

- **Cut production report preparation from a week and a half to three days.** Automated data processing across 10+ sources using Power Query and Excel macros.

Belorussky Poultry Breeding Plant | Economist, then Acting Chief Economist Aug 2018 – Nov 2019

- **Led a team of four economists** during a company reorganization.
- Automated 15+ reports on payroll, labor standards, and piece rates.
